Phosphorylase activity: Biochemical aspects of parasitism by angiosperm parasites: Part II — Phosphatase & phosphorylase activity in dodder & infected hosts 146

Phosphorylation of rat: Effect of acetoacetate on oxidative phosphorylation in rat liver mitochondria 134

Phosvitin: Characterization of phosvitin from hen egg yolk 210

Phytase from *Bacillus subtilis* 184

Plant gums: Studies on plant gums: Part I — Identification of nitrogenous compounds in neem (*Azadirachta indica*) gum & isolation of D-glucosamine 181

Plant hormones: Influence of plant hormones on the transamination of glycine *in vitro* 187

Plasma: Effect of *p*H & carbon dioxide on calcium interactions in human plasma 188

Effect of temperature on calcium interactions in normal human plasma 58

In vitro labelling of plasma with ^{95}Nb ... 44

Plasma membrane bound succinate dehydrogenase in *Salmonella typhosa* 55

Plasma proteins: Physico-chemical & antigenic characterization of human seminal plasma proteins: Part II — Biochemical characterization of the trichloroacetic acid soluble component of human seminal plasma 100

Plasmodium berghei: Studies on the phospholipids of mouse spleen on infection with *Plasmodium berghei* 222

Polyanions: Influence of polyanions & polycationic complexes of metals on cells & cellular organelles 171

Polycationic complexes of metals: Influence of polyanions & polycationic complexes of metals on cells & cellular organelles 171

Polyunsaturated fatty acid levels: Polyunsaturated fatty acid levels in liver & heart of riboflavin deficient rats 38

POWAR, V. K.: Phytase from *Bacillus subtilis* ... 184

Protein: A simple petri dish device for resolving milk proteins by starch gel electrophoresis ... 232

Effect of ascorbic acid deficiency on the *in vivo* incorporation of ^{14}C-leucine into proteins of different tissues of the guinea-pig ... 167

Interrelationship of dietary protein & vitamins in metabolism: Part IV — Influence of the levels of B-vitamins during protein regeneration ... 130

Physico-chemical & antigenic characterization of human seminal plasma proteins: Part II — Biochemical characterization of the trichloroacetic acid soluble component of human seminal plasma 100

Some observations on the antigenicity of the soluble proteins of monkey (*Macaca mulatta*) brain grey matter 29

Synthesis of RNA, DNA & protein during the growth of normal, viomycin-trained & reverted cultures of *Aerobacter aerogenes* 59

Protein antigens: Characterization of the soluble protein antigens of monkey (*Macaca mulatta*) brain cortical grey matter 155

Protein depletion: Interdependence of dietary protein & vitamins in metabolism: Part V — Relative influence of vitamin A & ascorbic acid on protein depletion & repletion in rats 114

Protein malnutrition: Studies on experimental protein malnutrition: Part II — Effect of threonine deficiency on some aspects of glycogen metabolism in rats ... 111
